**About XNK Therapeutics AB**

XNK Therapeutics is a clinical stage, immunotherapy company focusing its efforts on treating cancer by developing novel NK cell-based therapies. The company is at the forefront of the development of autologous NK cell-based products using its proprietary technology platform. The company's platform technology and lead investigational candidate drug is developed specifically to target cancers, including settings where allogeneic cell products are not readily applicable. The Company's objective is for its NK cell-based products to constitute key components in the cancer treatments of tomorrow. XNK Therapeutics is headquartered in Stockholm, Sweden.
